PRINT AND ASSEMBLE

Print tile pages 2-5 at Actual size / 100 percent.

Measure the test square below: it must be exactly one inch.

Trim at crop marks; match shared lines in the 1/4 inch overlap.

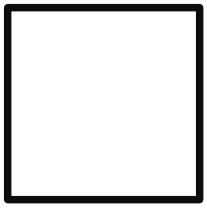
Tape tiles together. Keep one copy whole as an assembly cartoon.

Lines mark seam centres. Allow for foil or the chosen came heart.

Test fit scraps before cutting all templates. Numbers match the colour key.

SVG labels are separate from closed seam-centre paths.

Digitally checked; not physically test-built. Use a suitable perimeter frame.



1 X 1 INCH TEST SQUARE
